Sir,

Subject: Furnishing Joint committee report pertaining in to Shikaripaly Lake located in Jigani Hobli, Village Maragondanahalli, Electronic City, Bengaluru in the matte of Original application No. 155/2022-reg,

date:

Refrence: Board office Memorandum No. PCB/CEO-2/NGT OA 155/2022/23/ 1930 dated: 14.06.2022.

Please find herewith enclosed the Joint committee report pertaining in to Original application No. 155/2022 of Shikaripalya Lake to submit Hon'ble NGT Priniciple Bench for your kind perusal and further necessary action.

Your's Faithfully,

enior Environmental office Bengaluru-South.

JOINT COMMITTEE REPORT IN THE MATTER OF ORIGINAL APPLICATION NO. 155/2022 IN COMPLIANCE TO THE ORDER DATED 08MARCH, 2022 OF HON'BLE NGT, PRINCIPAL BENCH.

1.0 Preamble:

In the matter of O.A No.155 /2022, a case has been registered by the Hon'ble National Green Tribunal, Principal Bench, New Delhi in view of the complaint filed by Sri. Manni Ranjan & others v/s. State of Karnataka regarding encroachment and contamination of Shikariplaya Lake situated at Maragondanahalli village of Hulimangala grampanchayath, Jigani Hobli, Anekal Taluk, Bangalore. It is submitted that, garbage is being thrown into the lake and it is also being encroached by all sides and it is further submitted that due to unavailability of drainage system the sewage water generated in the catchment area is released into storm water drain that joins the Shikaripalya lake. The complainant requested the Hon'ble NGT for removal of encroachment and contamination of Shikariplaya Lake.

Hon'ble NGT vide its order dated:08.03.2022 constituted a three-member committee comprising of State PCB, District Magistrate and Municipal Commissioner, Bangalore Karnataka. The State PCB will be the nodal agency for coordination and compliance in order to ascertain facts (Copy enclosed as **Annexure-1**). The nodal agency for coordination and compliance will be State PCB.

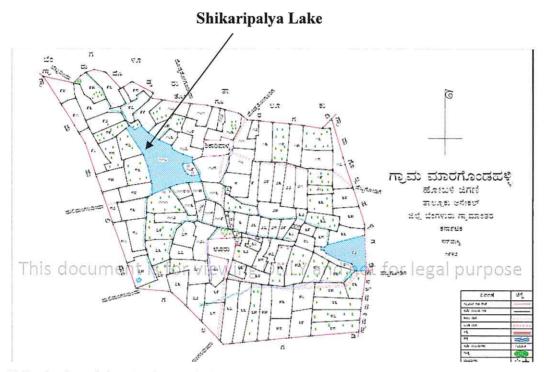

2.0 Constitution of Committee:-

In compliance to the said order, the KSPCB has constituted three members committee to ascertain the factual position of the Shikaripalya Lake and accordingly, an office Memorandum on constitution of committee was issued by the Board vide office memorandum No.1930 Dated: 14.06.2022. (Copy enclosed as **Annexure-2**). The details of committee members are as follows:

S.No.	Name of the Official	Representing	
1.	The Commissioner, BBMP N.R Square,	Chairman,	
	Bangalore -560002	Smt. Bhuprada	
	Chronic	Assistant Executive Engineer	
		Lake Division, BBMP.	
2.	District Collector, Bangalore Urban	Member	
	District, K.G Road, New District	Sri. Sangappa,	
	Registrar office Ambedkar Veedhi,	Deputy Commissioner,	
	Sampangi Rama Nagara, Bangalore.	Bengaluru.	
3.	The Regional Senior Environmental	Member Convener	
	Officer, Bangalore South, KSPCB, 7 th D	Sri. Vasudeva S.K,	
	Main Shivanagara, Bangalore –560079	SEO, KSPCB.	

A preliminary meeting of the committee was held at the office of the Deputy Commissioner, Bangalore Urban on 02.07.2022and discussed about the present status of Shikaripalya Lake and further decided to inspect the Lake by the joint committee members on 07.07.2022 along with the Tahasildar, Anekal, Assistant Executive Engineer, BBMP Lakes division on behalf of the Commissioner BBMP and local gram panchayath officials. The Shikaripalya Lake is located outside the BBMP limits and comes under Grampanchayat limits of Anekal Taluk.

3.0 Shikaripalya lake:

Shikaripalya lake is located in Sy No.110 Maragondanahalli village of Hulimangala grampanchayath, Jigani Hobli, Anekal Taluk, Bangalore. The total area of Shikaripalya lake is around 18.0 acres 39 guntas. The responsibility of maintenance of Shikaripalya lake is presently with the Hulimangala Grama Panchayath.

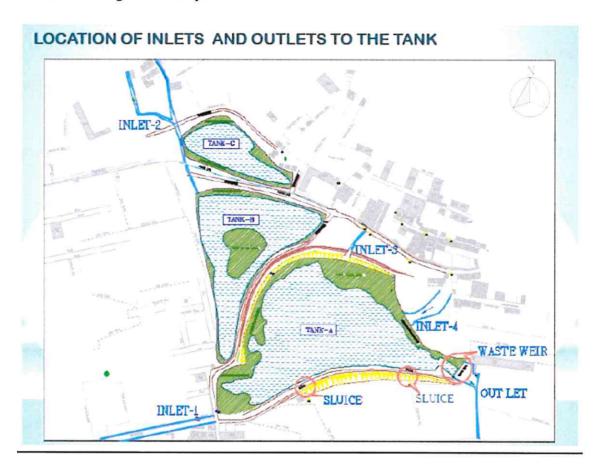

As per 2011 census, the Hulimangala Grama Panchayath is having a population of 32000 and consist of five villages namely Hulimanagala, Shikaripalya, Maragondanahalli, Bingipura and Vabasandra villages.

4.0 Shikaripalya lake & its Catchment area:

Earlier at the time of Kempegowda, the lakes were constructed in Bengaluru in order to store rain water and are interconnected with the storm water drain. Later after 2000, due to rapid growth of population & unplanned urbanization, resulted in failure of UGD & STPs, which in turn led to pollution of natural water bodies. As a result, most of the lakes are

polluted due to sewage discharge and natural/storm water drains are converted to sewage drains.

Similarly, for the Shikaripalya lake, there exists natural drains that interconnect the different lakes in the Anekal Taluk. There are four inlets connected to the Shikaripalya lake. The details are given in the picture below:-

<u>Inlet No 1</u>: In this stream, the sewage is entering into the lake from the area of Maragondanahalli village extensions and from Hulimangala village extension residential patches.

- In the entire Inlet 1, two villages of Maragondanahalli and Hulimanaga villages comes under this stream.
- Since 100% UGD is not existing in this village limits, the domestic sewage generated therein reaches the lake.
- Other than domestic sewage generated from the villages from few small apartments also let into the drain that reaches this lake through storm water drain.

Inlet 2 and Inlet 3:

• In Inlet 2 & 3 the sewage is coming from the Neeladri road residential houses and apartments of Doddatoguru village extensions directly joining the Lake through storm water drain. There is no UGD facility in this area and not treating the sewage generated from these area of village limits and hence the sewage is joining the Shikaripalya Lake.

Inlet 4:

• In inlet No.4 the sewage generated Shikariplaya village side is joining the lake through storm water drain. No UGD system in this area also.

Finally, the sewage generated in the upstream areas is joining to the Lake through open storm water drains along with private apartments is being discharged into the lake.

5.0 Deliberations of the committee:

In compliance to Hon'ble NGT order, joint committee visited the site on 7th July, 2022 and following observations were made:

5.1 Encroachment at lake bed area:

During the Joint Committee visit on 07.07.2022 the Deputy Commissioner, Bangalore Urban has directed the Tahsildhar Anekal to conduct the survey of Shikaripalya Lake of all sides and to clear the encroachment. Accordingly, the Tahsildhar Anekal has submitted the report stating that, the survey has been conducted all the sides of the lake and removed the structures constructed in the Lake area and evicted the encroachments which includes 0.08 guntas of land wherein Government Urdu school is running. The total encroachment is 1 Acre 38 guntas including land encroached by private people. The encroachment measuring 1 Acre 30 guntas has been cleared on 11.07.2022 except 0-08 guntas of land belonging to Government Urdu school and submitted the report to Hon'ble Deputy Commisioner on 13.07.2022 along with photographs is enclosed as **Annexure -3**.

5.2 Rejuvenation of Shikaripalya Lake:

The Shikari playa Lake is located at Sy No.110 of Maragondanahalli Village belongs to Hulimangala Gramapanchayath ,Anekal Taluk, Bangalore Urban District and it is out of BBMP limits .The responsibility and maintenance is presently with the Hulimangala Grama Panchayath.

The Hulimangala Grama Panchayath has handed over the lake for rejuvenation to M/s.Oasis Foundation, Shiva Chandra Nilaya, No.3517/23,New Maruthi extension , Near Cambridge School , Hunsur-571105 Mysore District And Sri. Anand Maligavad, Founder and trustee, Maligavad Foundation, Yellanahalli, Bangalore - 560068 on 11.01.2022 vide letter No.104/2122 Dated 11.01.2022 issued by Panchayath Development officer, Hulimangala Gramapanchayath (Copy enclosed as Annexure-- 4).

Accordingly, M/s. Sri Anand Maligavad, Founder and trustee has taken up the rejuvenation of lake and they have already developed the Lake with following works:

- De silting of lake bed completed and removed all the earlier dumped waste
- Constructed the bund and provided turfing to the newly constructed bunds.
- Constructed 7 No's of floating wetland / lagoons for treatment of influent water / sewage.
- The influent water/sewage is passed through series of 7 No's of floating wet land / lagoons, where in the nutrients (NPK) is removed from the influent and finally the treated water is discharged to nala which finally joins the downstream lake by natural purification.
- It was informed that, the bio fencing will be provided by planting bamboos and bougan villia saplings around the lake.

The rejuvenation of the Lake is completed about 90% and only 10% work is pending such as planting of sapling, bio fencing and providing floating plants for the three numbers of lagoons to complete rejuvenation of the lake.

6.0 Recommendations of the committee:

It is to inform that, the rejuvenation of lake is under process and demolition of encroachment were completed by concerned department. However, in order to avoid heavy load of sewage contamination on lake following recommendations are suggested by the committee to concerned departments/authorities/stakeholders for kind consideration of Hon'ble Tribunal:

6.1 Local bodies in the catchment area of Shikaripalya lake:

- To carryout mapping in Shikaripalya lake catchment area to identify all the drains carrying sewage and entering into the lake.
- To take immediate steps to control the discharge of untreated sewage into the drains.
- To follow-up with the Govt. of Karnataka to expedite the approval of DPR and allocation of land for setting up of STPs in the catchment area.
- To explore decentralized composting methods for treatment of municipal solid waste

6.2 Karnataka State Pollution Control Board (KSPCB):

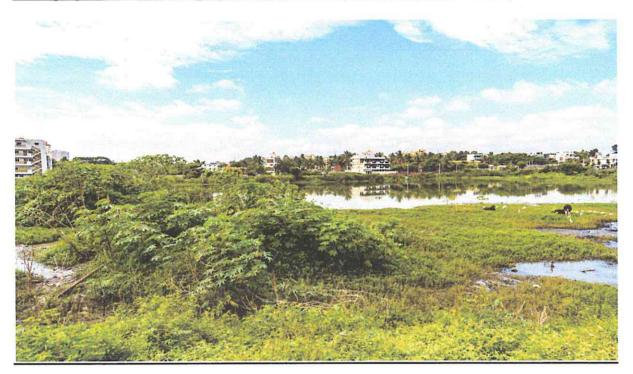

- Not to accord permissions to Apartments / Commercial Complexes without providing Sewage Treatment Plant and proper recirculation / reuse system in their own premises.
- To conduct Environmental Audit of all Apartments in the catchment area for verification of the STP's provided and utilization of treated sewage for in-house purpose.
- To issue directions to local bodies (Grampanchayaths) to expedite alternative/decentralized treatment technologies for sewage treatment till the establishment and functioning of STPs in their village limits.

Photographs of the Shikaripalya Lake before Rejuvenation are as below:

Photographs of the Shikaripalya Lake before Rejuvenation are as below:

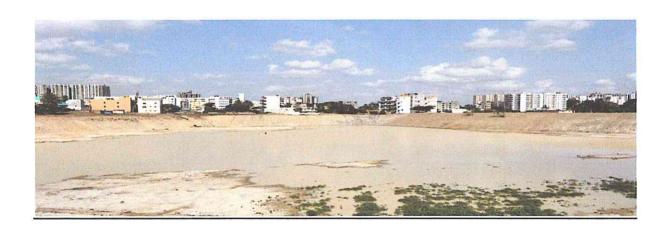

Photographs of the Shikaripalya Lake after Rejuvenation are as below:

A View of Lagoons newly constructed in the Shikaripalya Lake

A Photo of Foundation stone laid by Malligavad Foundation trustee rejuvenated Shikaripalya lake.

Photographs of the Lagoons with turfing to the Bunds provided

The encroachment of the Lake has been already evicted by the District Administration except 0-08 guntas of land where Government school is present and running and rejuvenation work is completed except bio fencing and providing floating plantations for 3 lagoons.

HON'BLE DR. AFROZ AHMAD, EXPERT MEMBER

Applicant: None.

Respondent(s):

ORDER

- 1. Grievance of the applicant Mr. Manni Ranjan is regarding encroachment and contamination of Shikaripalaya Lake situated at Hobbi Jigani, Village Maragondanathalli Electronic City, Bangaluru, Karnataka which is spread over an area of 19.5 acres. It is submitted that garbage is being thrown into the lake and it is also being encroached upon by the encroacher from all sides. It is further submitted that due to unavailability of drainage system, the sewage water generated in catchment area is released into storm water drain and thereafter into the lake.
- 2. Having regard to the seriousness of the allegations, it appears necessary to ascertain the factual position in the matter through a Joint Committee of the State PCB, District Magistrate & Municipal

Commissioner, Bangaluru, Karnataka. The State PCB will be the Nodal agency for coordination and compliance. The Joint Committee may meet within one month and undertake site visit and look into the grievance of the applicant. Factual and action taken report may be furnished within three months by e-mail at judicial-ngt@gov.in preferably in the form of searchable PDF/OCR Support PDF and not in the form of Image PDF.

List the matter for consideration on 12/07/2022.

A copy of this order, along with a copy of the complaint, be forwarded to the State PCB, District Magistrate & Municipal Commissioner, Bangaluru, Karnataka by e-mail for compliance.

OFFICE MEMORANDUM

1 4 JUN 2022

Sub: Constitution of Joint Committee to ascertain the factual position of Shikaripalaya lake located at Hobli Jigani, Village Maragondanathalli, Electronic City, Bengaluru in the matter of Original Application No 155/2022 – reg.

Ref: National Green Tribunal, Principle Bench, Maani Ranjan & Others v/s State of Karnataka in the OA No 155/2022 order dated 08/03/2022.

Preamble:

The National Green Tribunal, Principle Bench in the matter of Original Application No 155/2022 has passed an order on 08/03/2022 regarding dumping of garbage into the lake and encroachment of lake from all the sides and no drainage system, due to which there is an entry of sewage generated in the catchment area into the lake. In this regard, The Hon'ble NGT has directed to constitute a Joint Committee involving the representatives of the following Organizations to ascertain the factual position of Shikaripalaya lake wherein, the KSPCB will be the Nodal Agency for co-ordination and compliance.

Hence, in compliance with the said directions, a Joint committee has been constituted comprising of the following Departments:

Sl. No.	Name of the Officer	Position in the Committee
1.	The Commissioner, BBMP, N R Square, Bengaluru-560002.	Chairman
2.	The District Collector, Bengaluru Urban District, KG Road, Near District Registrar Office Ambedkar Veedhi, Sampangi Rama Nagara, Bengaluru- 560009	Member
3.	The Regional Senior Environmental Officer, Bengaluru South, KSPCB, 7 th D main road, Shivanagar, Bengaluru-560079	Member Convener

The Committee shall inspect the area and look into the grievance of the applicant and suggest suitable mitigative actions for implementation. Since KSPCB is the Nodal agency for co-

ordination and compliance and is required to submit the Joint Inspection report within 1/07/2022 to the Hon'ble NGT as the next hearing is scheduled on 12/07/2022.

The matter may be treated as 'most urgent'

Encl.: NGT OA 155/2022 order dated 08/03/2022.

Subject: Approval for Shikaripalya Lake rejuvenation.

Dear Team,

It is indeed a great pleasure to get your support for Shikaripalya Lake Rejuvenation. The take has been lying idle for a long a time now

The village panchayath will extend its support during the execution of the project and there after

The parichayath will also extended its support in encroachment exiction in smooth coordination with the village

Shikaripalya lake Committee will be formed to ensure that the lake remains in proper condition after rejuvenation. The committee will comprise of members of the panchayath and local community members.

Panchayanth will also ensure that no other claims to the work being done Malligavad Foundation Oasis Foundation & Hands, and Eco Foundation in support of its non-person part is:

Consider this feiter as an TIOC and approval to start the project at your earliest convenience

All the best!
